Links between the FBI and private sector Homeland Security

Hello, Mr. Gerrish

I've just come across an article that I wanted to share with you.

It concerns an extremely disturbing organization linking the public and the private sector in the U.S.: in this case, the FBI and critical individuals who deal with the nation's infrastructure. It is absolutely chilling. I'm sure it's exactly the same thing that CP is all about. . . so that even if it deals with what's happening in the U.S., it pretty much spells out the end game!

I found the article when I was reading Naomi Wolf's articles on The Huffington Post.com regarding Sarah Palin, "the Muse of the Coming Police State". There was a link in one of the comments. What a way to start a rather dreary day in NYC! Still, it's important to be well informed . . . I guess!

Best wishes,
